

A woman with curly hair is seen from the side, loading laundry into a large, front-loading commercial washing machine. The machine is a light-colored metal with a black control panel featuring a digital display and several buttons. The setting appears to be a laundromat with other similar machines in the background.

KEEP YOUR LINE-UP CURRENT

Our position on the forefront of laundry technology means that we're continuously bringing new innovations to the market. Leasing allows you to upgrade or exchange your equipment at any time during the lease. Consistently featuring the latest and greatest equipment in your store helps to both attract new customers as well as ensure that your machines are running at maximum efficiency.

POSSIBLE TAX ADVANTAGES

Your leasing payments may be tax deductible, potentially allowing you to align cash outflows with tax deductions while also reducing the net cost of your leasing. Contact your accountant for more information or independent taxation advice on how leasing could benefit your business.
